RESUME

I am a highly motivated Front-End Developer passionate about continuous learning and constantly improving my skills. My goal is to become a valued professional in the technology sector, offering innovative solutions that add value to the business.

EXPERIENCE

Software Developer Engineer

December 2023 - Present

- I have been involved in the development and maintenance of high-performance e-commerce platforms including Tuambia, Merkolanza, Casalinda and Parranda, ensuring enjoyable user experiences and robust functionalities.
 - I implemented responsive and user-friendly interfaces in several management systems, improving the efficiency of e-commerce operations and internal company management.
 - I contributed to the development of a comprehensive business management system with multiple modules, improving organizational workflows and decision-making processes.
-

EDUCATION

Mechanical Engineering

2017 - 2023

Camilo Cienfuegos University of Matanzas

PROJECTS

Tuambia • tuambia.com

February 2024 - April 2024

- I was part of the development of the new Tuambia Wallet, as well as the reward and points redemption system.
- Improved user interfaces, resulting in better accessibility and customer satisfaction.
- I actively participated in the maintenance and optimization of the platform, ensuring an uninterrupted flow for users by implementing proactive monitoring and troubleshooting strategies, resulting in a seamless user experience and unobtrusive handling of technical errors.

Merkolanza • merkolanza.com

April 2024 - June 2024

- I was part of the development of Merkolanza from the ground up, together with a diverse team of professionals.
- I developed adaptive and user-friendly interfaces.

Parranda • cervezaparranda.com

June 2024 - June 2024

- I was part of the development of Parranda's virtual store, managing to bring it into production in record time for the company.
- I implemented adaptive user interfaces that were highly accepted by users.

CERTIFICATIONS
